

Darkness or Light

Whenever Darkness occurs
There is always a search for light,
Even in the black universe,
The stars are still very bright.
When nothingness explodes
The dark fights with the light,
The winner still remains unknown,
Though dark seems to dominate,
But what about light's fate?
Darkness is friends with light
Still, it can't stop the path of light.
Light is a form of darkness, and darkness is a form of light
Just with adverse effects in our life
It's on us which form we need
Either we sleep or lead,
The world keeps asking
Are we the darkness or the light?

A BORING CLASS

In a place with similar humans.
Similar aims; similar lives; similar needs
Sitting with eyes but not minds

Garden, forest, school, or none
Or may be focused with no fun.

Hopes for time to go fast
Hopes for every minute to be last.

Learning about what we really need
In a way which is not right,
Complaints all over the country
But can't come together to fight

Randomness flowing in brains
Just like blood in the veins,
Now, everybody looks the same
Not surprising, but out of frame.

One loud voice, all back on road,
All Forced to change their mode
